

# WHAT FUTURE FOR THE ENERGETICS POLICIES IN EUROPE AND IN CZECHIA?

June 22<sup>nd</sup> 2021

Prague – „Kino Přítomnost“  
Siviecová 1839/1, Prague 3 - Zizkov

The conference is held under the auspices of Marian Jurečka, Vice-chairman of the Committee on Economic Affairs of the Chamber of Deputies of the Parliament of the Czech Republic

09:30 – 10:00  
REGISTRATION

10:00 – 10:15  
INTRODUCTORY SPEECH

**Markus EHM**

Representative and Regional Director of the Hanns-Seidel-Foundation in the Czech Republic, Slovakia and Hungary

10:15 – 11:45  
I. PANEL: FUTURE OF THE ENERGETICS POLICIES IN EUROPE

What are the plans of the European Commission in energetics and how can they affect the European economy and energy self-sufficiency in the future? How to approach the fact that Czechia is a major exporter of energy from coal power plants for instance to the neighbouring Germany – which subsequently produces clean energy from renewable resources thanks to the import of „dirty“ coal energy from the CEE countries?

**Dimitar LILKOV**

Research Officer of the Wilfried Martens Centre for European Studies

**Marian JUREČKA**

Vice-chairman of the Committee on Economic Affairs of the Chamber of Deputies of the Parliament of the Czech Republic

**Martin HUBER**

Member of the Environment and Consumer Protection Committee of the Landtag of Bavaria

**Kristina ZINDULKOVA**

Associate Fellow of the AMO Research Centre

11:45 – 12:45  
LUNCH BREAK

This conference receives financial support from the European Parliament and from the Federal Foreign Office of Germany. Sole liability rests with the organisers, the European Parliament and Federal Foreign Office are not responsible for the activity

12:45 – 14:15

II. PANEL: CZECHIA AND ELECTROMOBILITY

What is the broader context of global electric car production and what role does Europe, on the one hand, and China, on the other hand, play in this regard? Would a concentration on development, production and export of electric cars mean an added value for Czechia? How could the state, but also the automotive industry in Czechia proceed in this respect?

**Michal KADERA**

External Affairs Director at ŠKODA AUTO

**Martin VORISEK**

Department of Sectoral Expertise and Industrial Policy, Ministry of Industry and Trade of the Czech Republic

**Lukas HATAS**

Executive Director of the Association for Electromobility of the Czech Republic

**Lucie BEAUMEL**

Head of Office, European Green Vehicles Initiative

14:15 – 14:30  
COFFEE BREAK

14:30 – 15:50

III. PANEL: ALTERNATIVE WAYS IN NUCLEAR ENERGETICS

What are the other possibilities in the field of nuclear energy? How far is the research of nuclear energetics alternatives e. g. modular reactors? What are the outlooks for the first commercial use of such devices? Is it realistic to consider the integration of these technological solutions into the Czech nuclear energetics system? What would be the possible advantages or risks compared to conventional nuclear power plants?

**Dana DRABOVA**

Chairwoman of the State Office for Nuclear Safety

**Marek RUSCAK**

Supervisor of the Modular Reactor Project of the Institute of Nuclear Research in Řež

**Vladimir WAGNER**

Research Secretary of the Nuclear Physics Institute of the Czech Academy of Sciences

**Jaroslav MIL**

Former CEO of CEZ and Government Commissioner for Nuclear Energy

15:50 – 16:00  
CLOSING REMARKS

**Moderator:**

**Martin PETRICEK**

Energetics Editor of iDNES
